Basanta Dharala.

Kathmandu, Nepal | 9829654869| basantadc52@gmail.com

Professional Summary

Aspiring Computer Engineer with a strong foundation in frontend development, Python, and machine learning. Currently pursuing a Bachelor's degree at Universal Engineering and Science College. Passionate about leveraging technology to solve real-world problems.

Education

Bachelor in Computer Engineering

Universal Engineering and Science College, Kathmandu

Expected Graduation: June 2025

Skills

- Frontend Development: HTML, CSS, JavaScript

- Programming Languages: Python

- Machine Learning: TensorFlow, Scikit-learn

- Deep Learning: Keras, PyTorch

- Version Control: Git

Experience

- Developed responsive web pages using HTML, CSS, and JavaScript.

- Assisted in the development of machine learning models for data analysis.

- Collaborated with senior developers to improve code quality.

Projects

Personal Portfolio Website

- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript.

- Integrated Python scripts for backend functionalities.

Machine Learning Model for Predictive Analysis

- Created a predictive model using Python and TensorFlow to analyze and forecast trends in data.

- Achieved an accuracy rate of 85% on the test dataset.

Additional Information

Certifications: Machine Learning A-Z course

Languages: English, Nepali

Hobbies/Interests: Listening, Watching Movies
